THE DICKENS UNIVERSE

Introduction

This summer, University of California Extension, Santa Cruz, is pleased to present the third in a series of annual workshops/conferences on Charles Dickens. Bringing together many distinguished Dickens scholars from throughout the University of California system as well as from other major universities, the program combines formal lectures, small discussion groups and workshops, and films of Dickens' works. The comprehensive program is designed for both teachers and the general public.

The week-long course will focus each year on a different aspect of the vision of Charles Dickens as evidenced in one or two of his novels. In the summer of 1983, the topic will be "Dickens and the Fantastic."

We will explore the special mixture of realistic and non-realistic elements in Dickens' writing, including his use of fairy tales, coincidence, supernatural effects, and the grotesque. We will focus on David Copperfield as our principal text. Attention will be paid to the variety of Romantic qualities in Dickens' fiction and to the affinities between his work and that of other "magical realists" in his century and our own. A scholarly conference on victorian autobiography and autobiographical fiction will be held concurrently with the course and will be open to Dickens Universe participants. The course will include film and video tape showings, dramatic readings from the novels, wine tasting, and other festive events of an appropriately Dickensian nature. There will be opportunity for discussion in small formal and informal groups.

Because a segment of the program presents teaching strategies, this course is of particular interest to teachers of English literature. It is also designed to increase the pleasure of reading Dickens for people who already love to read his work as well as those just discovering him.

On the afternoons of Thursday and Saturday, August 4 and 6, there will be a scholarly conference on "Victorian Autobiography and Autobiographical Fiction" that will be open to participants of the Dickens Universe.

On Saturday evening, August 6, we will have a formal dinner, a witty speaker, and a party. We will conclude the Dickens Universe with panel discussions and a closing lecture on Sunday morning, August 7.
